

Michigan Healthcare Freedom – The MHF Education Initiative to support freedom in Michigan!

Sponsorship Information

We are excited to share with you that this year we will be doing the MHF Education Initiative.

- MDHHS Awareness Project
- Drive for Certificate of Need Repeal
- Legislative Report Card
- Class of the Month Club

Funds raised during this sponsorship drive are to support our website and operating expenses to raise awareness and promote healthcare freedom in Michigan. We have a goal of \$47K to run our Education Initiative through December, 2022. Our plan includes research, producing articles, radio interviews, and classes; coordinating volunteers; and informing our 2800+ MHF facebook group members, email list, and all of Michigan through sponsored posts.

These funds will help Michigan residents access health policy information and communicate with their legislators while learning about state health policies that block their freedoms. Funds also support networking with others who share their interests. You will help us serve our tremendous growth in membership by assisting them along the road to become informed consumers and involved citizens!

We are asking for your support.

How can you support?
